## STOCK EXCHANGE PRICES HIGHER; MARKET STRONG

While Volume of Sales Is Not Quite So Great as in Some Previous Sessions, Tone Is Decidedly Better.

**CHICAGO BOARD OF TRADE.**  
Chicago, April 15.—A quiet scarcity of wheat reserves predicted for the near future had a bullish effect today on the wheat market here, but rural holders were said to be selling a little more freely, and some of the grain in price disappeared. There was an unsettled close at 5c to 1½c above last night. Corn finished a shade to 2c higher, oats off ½c to 1c, and wheat and provisions down to 1c to 1½c.

Buying of wheat started with a rush, influenced in some extent by cable advices, especially word that estimates of the exportable surplus of India had been reduced to 78,000,000 bushels as against previous estimates of 120,000,000 bushels. Later the bull side was favored by notice that export clearances from the United States for the last twenty-four hours totalled 1,100,000 bushels, and that Europeans had purchased at seaboard today 300,000 bushels additional.

Moreover, assertions were current that fully 8,000,000 bushels of spring wheat had been sold to leave Duluth as soon as possible after the opening of the Great Lakes navigation season, beginning at midnight tonight.

On the other hand, small but regular recessions of a point or two resulted, while among inconspicuous species even greater advances were to be forgotten.

One of the reassuring features of the session was the comparative quietness of Bethlehem Steel, which remained in retirement after its early advance and closed with a one-point loss. The entire list, with a few unimportant exceptions, rose under the irresistible influence of an avalanche of new buying orders. From time to time this was partly neutralized by a renewal of selling pressure on an enormous scale. In the final hour recessions of a point or two resulted, while among inconspicuous species even greater advances were made.

Union Pacific, United States Steel and other speculative favorites reported their high prices of a day or two ago, and many other stocks of high and low degree rose to levels unequalled in several years. Almost the only stocks to reflect backwardness were those comprising the motor group, but even their losses were nominal in comparison with their gains of the last few weeks.

Engagement of \$7,000,000 gold from Canada and intimations of additional imports from the orient were among the more interesting developments in the general financial situation. Exchange of Germany was London showed no material change in that quarter.

Americans were irregular in London, Canadian issues being lower, with a better demand for titan-continentals. The Bank of England reported a decided gain in its gold holdings the first in several weeks, together with a slight strengthening of its reserve liabilities.

Total sales of stocks amounted to 1,250,000 shares.

Following some early irregularity, the bond market turned strong. Total sales, par values, aggregated \$4,000,000.

United States coupons declined ½ per cent on call.

Closing prices:

Wheat—May, \$1.61 ½c; July, \$1.39 ½c.

Corn—May, 74c; July, 74 ½c.

Oats—May, 56 ½c; July, 55 ½c.

Pork—May, \$17.27; July, \$17.37.

Lard—May, \$10.37; July, \$10.37.

Rib—May, \$10.05; July, \$10.37.
